

PROTECT YOUR CAMERA GEAR AGAINST THEFT, FIRE AND ACCIDENTAL DAMAGE

Camera equipment such as digital bodies, camera backs and lenses represents a tempting target for thieves as well as being subject to accidental damage from dropping, water damage and other incidents.

Mobile equipment is at its most vulnerable when you are out of the studio or travelling. Unfortunately most home and business policies do not cover theft that occurs outside the home or studio, and this is exactly when you are most likely to need insurance protection. And they normally won't cover you for accidental damage wherever it occurs.

We know you rely on your equipment, so we aim to approve your claim within 48 hours, compared to an industry norm of around 3-4 weeks.

WHAT IS COVERED?

Protecsure offers a specialist insurance product that protects your camera equipment anywhere in Australia, and even overseas for 28 days per trip (extendable). Cover periods are from 6 months to 3 years. The cover is broad and protects against theft, accidental damage, fire and even loss in transit.

Our policy is underwritten by Chubb Insurance Company of Australia Ltd (ABN 69 003710647, Licence No. 239778), a leading worldwide insurer with a strong AA credit rating and an excellent reputation for claims service. The Insurance Cover will pay for replacement or repair of your equipment in the event of a valid claim.

FEATURES & BENEFITS
